Published by Authority of
The Honourable George Hees, Minister of Trade and Commerce

#### PUBLICATIONS

The results of the annual Census of Industry are published by the Dominion Bureau of Statistics in a series of industry and summary reports which are released each year as the compilations are completed. The summary reports for the **Manufacturing Industries** are listed below. A complete catalogue of publications of the Bureau is available on request from the Information Services Division, Dominion Bureau of Statistics, Ottawa, or from the Queen's Printer, Ottawa,

Catalogue number	Title	Price

#### NOTE. - 1957 REFERENCE MAPS

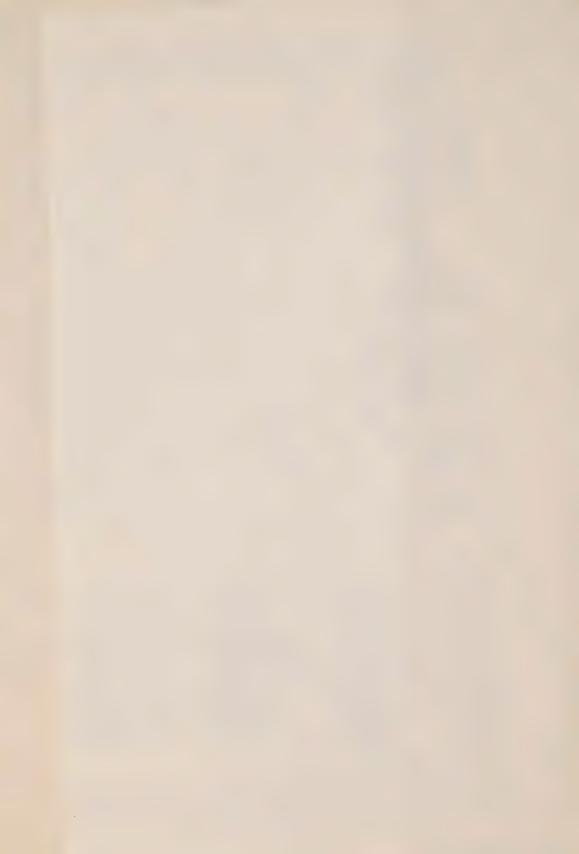

The Ninth (1956) CENSUS of Canada has prepared a report which provides a series of reference maps for the 1956 Census. A map is provided for each of the ten provinces of Canada, outlining the boundaries of the counties, or census divisions, as the case may be.

The maps for all provinces except Quebec and Ontario show the various subdivisions of the counties or census divisions. For the Prairie Provinces, the maps outline the boundaries of the municipal units, and, in addition, the lines of the smaller subdivisions indicate the townships. Because of the small scale of these provincial maps, it is not possible to outline the subdivisions of the counties in the Provinces of Quebec and Ontario. If these are required other map sources should be consulted.

This bulletin also contains maps showing the municipalities, or parts thereof included in each of the census metropolitan areas. As in the provincial series, these maps are not drawn to a uniform scale, and are restricted to principal features of outline only. Their main use is as a guide to locations and to show the broad geographical relationships of the areas involved.

A request for this balletin may be made to the Bureau of Statistics, Information Services Division — Publications Distribution Unit, asking for 1956 Census BULLETINS 1-2, 1-3, 1-4, 1-5, 1-6. Price 25 cents each.

## THE MANUFACTURING INDUSTRIES OF CANADA, 1959

SECTION G

## GEOGRAPHICAL DISTRIBUTION

In order to expedite the publication of the present report a change was made in the method of compilation and publication. In the past, the tables were prepared by hand, from the machine tabulations which gave statistics for each industry regardless of the number of establishments in each. The tables then had to be varityped and photographed for printing. This was a costly and time-consuming procedure. Under the new method, the tabulators are set up to provide the appropriate combinations required for publication. All that is now necessary to do by hand is to paste on the appropriate headings. When this is done the page is ready for photographing, thereby saving two costly steps, viz., varityping and proofreading. As the punch card contains only 80 columns, some of the principal statistics are published in thousands instead of units as formerly. It was also necessary to shorten some of the industry titles appearing in the stub and abbreviations used. However, the list of the full titles are given below for reference, including the abbreviations in brackets.

#### INDUSTRIES

#### 1. Foods and beverages:

Bakery products:

Biscuits Bread and other bakery products (Bakeries)

#### Beverages:

Breweries

Carbonated beverages (Soft drinks)

Distilled liquors

Wines

#### Canning and processing:

Fish processing

Fruit and vegetable preparations

#### Dairy products:

Butter and cheese

Process cheese

Concentrated milk products (Milk condenseries)

Dairy products, other

#### Grain mill products:

Feeds, stock and poultry, prepared

Feed mills

Flour mills Foods, breakfast

Meat products:

Animal oils and fats

Sausage and sausage casings

Slaughtering and meat packing

Other food industries:

Confectionery

Macaroni and kindred products

Sugar refining

Miscellaneous food preparations

#### 2. Tobacco and tobacco products:

Tobacco, cigars and cigarettes Tobacco processing and packing

#### 3. Rubber products:

Rubber goods including footwear

#### 4. Leather products:

Footwear, leather

Leather gloves and mittens

Leather tanning

Other leather industries:

Belting, leather

Boot and shoe findings, leather Miscellaneous leather goods, n.e.s. 5. Textiles:

Cotton goods:

Cotton thread Cotton yarn and cloth

Miscellaneous cotton goods

Woollen goods:

Carpets, mats and rugs

Woollen cloth

Woollen yarn

Miscellaneous woollen goods

Synthetic textiles and silk

Other primary textiles:

Dyeing and finishing of textiles

Narrow fabrics

Other textile industries:

Automobile accessories, fabric Awnings, tents and sails (canvas products)

Bags, cotton and jute Cordage, rope and twine

Embroidery, pleating, hemstitching, etc. Oilcloth, linoleum and other coated fabrics (Linole-

um and coated fabrics)

Miscellaneous textiles, n.e.s.

#### 6a. Knitting mills:

Hosiery

Knitted goods

6b. Clothing:

Men's, women's and children's clothing:

Clothing, children's factory

Clothing, men's factory

Clothing, women's factory Clothing contractors, men's Clothing contractors, women's

Miscellaneous clothing:

Corsets (Foundation garments)

Fur dressing and dyeing Fur goods

Gloves and mittens, fabric

Hats and caps

Oiled and waterproofed clothing

Miscellaneous clothing

#### 7. Wood products:

Furniture

#### INDUSTRIES - Concluded

#### 7. Wood Products - Concluded:

Saw and planing mills: Flooring, hardwood Sash, door and planing mills Sawmills Veneers and plywoods

Other wood industries:

Beekeepers' and poultrymen's supplies
Boxes and baskets, wood
Cooperage
Excelsior
Lasts, trees and shoe findings
Morticlans' goods

Woodenware
Wood turning
Miscellaneous wood products, n.e.s.

#### 8. Paper products:

Boxes and bags, paper Pulp and paper Roofing paper Miscellaneous paper goods

#### 9. Printing, publishing and allied industries:

Commercial printing:
Printing and bookbinding
Trade composition

Engraving, stereotyping and allied industries: Engraving, stereotyping and electrotyping Lithographing

Printing and publishing:
Printing and publishing
Publishing (only of periodicals)

#### 10. Iron and steel products:

Agricultural implements
Boilers, tanks and platework
Bridge and structural steel work (Fabricated)
Castings, iron (iron foundries)
Hardware, tools and cutlery
Heating and cooking apparatus
Machinery, household, office and store
Machinery, industrial
Machine shops
Machine tools
Primary iron and steel
Sheet metal products
Wire and wire goods
Miscellaneous iron and steel products

#### 11. Transportation equipment:

Aircraft and parts
Bicycles and parts
Boat building
Motor vehicles
Motor vehicle parts
Railway rolling stock
Shipbuilding
Miscellaneous transportation (Vehicle)

#### 12. Non-ferrous metal products:

Aluminum products
Brass and copper products
Jewellery and silverware
Non-ferrous metal smelting and refining
White metal alloys
Miscellaneous non-ferrous metal products

#### 13. Electrical apparatus and supplies:

Batteries
Refrigerators, vacuum cleaners and appliances
Machinery, heavy, electrical (Equipment)
Telecommunication equipment (Radio)
Miscellaneous electrical apparatus and supplies
Electrical wire and cable

#### 14. Non-metallic mineral products:

Abrasives, artificial
Asbestos products
Cement, hydraulic
Clay products from domestic clay
Clay products from imported clay
Concrete products
Glass and glass products
Gypsum products
Lime
Salt
Sand-lime brick
Stone products
Miscellaneous non-metallic mineral products

#### 15. Products of petroleum and coal:

Coke and gas products
Petroleum products
Miscellaneous products of petroleum and coal

#### 16. Chemicals and allied products:

Acids, alkalies and salts (Industrial chemicals)
Fertilizers
Medicinal and pharmaceutical preparations
Paints, varnishes and lacquers
Primary plastics
Soaps, washing compounds and cleaning preparations
Toilet preparations
Vegetable oils

Other chemical industries:
Adhesives
Coal tar distillation
Gases, compressed
Inks
Polishes and dressings

Miscellaneous chemical products, n.e.s.

#### 17. Miscellaneous industries:

Brooms, brushes and mops
Clocks, watches and watch cases
Fountain pens and pencils
Instruments and related products
Musical instruments
Ophthalmic goods
Orthopaedic and surgical appliances
Plastics products
Sporting goods
Toys and games
Typewriter supplies

Other miscellaneous industries:
Artificial flowers and feathers
Buttons, buckles and fasteners
Candles
Hair goods
Ice, artificial
Lamps, electric and lamp shades
Models and patterns, excluding paper
Pipes, lighters and smokers' supplies
Signs, electric, neon and other
Stamps and stencils, rubber and metal
Statuary, art goods, regalia and novelties (Art
goods, novelties)
Umbrellas
Other miscellaneous industries

TABLE 1. Historical Summary of Statistics of Manufactures for the Dominion, 1917-59 Note: Principal statistics for 1870 to 1915 published in the 1951 edition of this report

¹ The value added by manufacture is derived by subtracting from the gross value of products the cost of materials and fuel and electricity.
² A change in the method of computing the number of wage-earners in the years 1923 to 1930, inclusive, increased the number somewhat over that which the method otherwise used would have given. In 1931, however, the method in force prior to 1925 was re-adopted. The figures for 1931 and later years are, therefore, comparable with those for 1924 and earlier years.
³ Not collected.
⁵ Includes Newfoundland.
⁵ In 1952 the basis of collection became "Value of factory shipments".

#### List of Confidential Cities and Towns, 1959

#### Newfoundland:

Burin, Division No. 2 Corner Brook, Division No. 5

#### Nova Scotia:

Canso, Guysboro County Hansport, Hants County
Louisburg, Cape Breton County
Liverpool, Queen's County
Mulgrave, Guyboro County

#### New Brunswick:

Bathurst, Gloucester County Dalhousie, Restigouche County Edmunston, Madawaska County Marysville, York County Sackville, Westmorland County St. George, Charlotte County

#### Quebec:

Arvida, Chicoutimi County
Asbestos, Richmond County
Ayersville, Argenteuil County
Baie Comeau, Saguenay County
Beaupré, Montmorency No. 1 County
Bromnsburg, Argenteuil County
Brounsburg, Argenteuil County
Brounsburg, Argenteuil County
Calumet, Argenteuil County
Carrobert, Rouville County
Cap-Chat, Gaspe West County
Chandler, Gaspe East County
Chandler, Charlevoix East County
Chandler, Charlevoix East County
Chardevix East County
Colermont, Charlevoix East County
Crabtree, Joliette County
Dolbeau, Lac-St-Jean West County
Donnaconna, Portneuf County
East Angus, Compton County
Gatineau, Hull County
Ile Maligne, Lac St-Jean East County
Kénogami, Chicoutimi County
Knowlton, Brome County
La Tuque, Champlain County
Lauzon, Lévis County
Le Moyne, Chambly County
Masson, Papineau County
Masson, Papineau County
Masson, Papineau County
Masson, Papineau County Lauzon, Lévis County
Le Moyne, Chambiy County
Masson, Papineau County
McMasterville, Verchères County
Montmorency, Quebec County
Noranda, Témiscamingue County
Ormstown, Châteauguay County
Port. Alfred, Chicoutimi County
Port Alfred, Chicoutimi County
Portneuf, Portneuf County
Price, Matane County Port Alfred, Chicoutimi County
Portneuf, Portneuf County
Price, Matane County
Riverbend, Lac St-Jean East County
Riverbend, Lac St-Jean East County
Riverbend, Lac St-Jean East County
St-Agapitville, Lotbinière County
St-Agapitville, Lotbinière County
St-Georges West, Beauce County
St-Georges West, Beauce County
St-Germain-de-Grantham, Drummond County
St-Joseph-de-Sorel, Richelieu County
St-Joseph-de-Sorel, Richelieu County
St-Martin, Jesus Island County
St-Pierre, Montreal Island County
St-Pierre, Montreal Island County
St-Pierre, Montreal Island County
St-Vincent-de-Paul, Jesus Island County
Sillery, Quebec County
Sorel, Richelieu County
Témiscamingue, Témiscamingue County
Tracy, Richelieu County
Valcourt, Shefford County
Valcourt, Shefford County
Valennes, Verchères County
Verchères, Verchères County
Villeneuve, Quebec County

#### Quebec - Concluded:

Watervirle, Compton County Windsor, Richmond County

Ontario:

Amhetsburg, Essex County
Aylmer, Elgin County
Blind River, Algoma County
Braeside, Renfrev County
Burlington, Wentworth County
Cache Bay, Nipissing County
Caledonia, Haldmand County
Cardinal, Grenville County
Chippawa, Welland County

#### NOTE. - 1961 REFERENCE MAPS

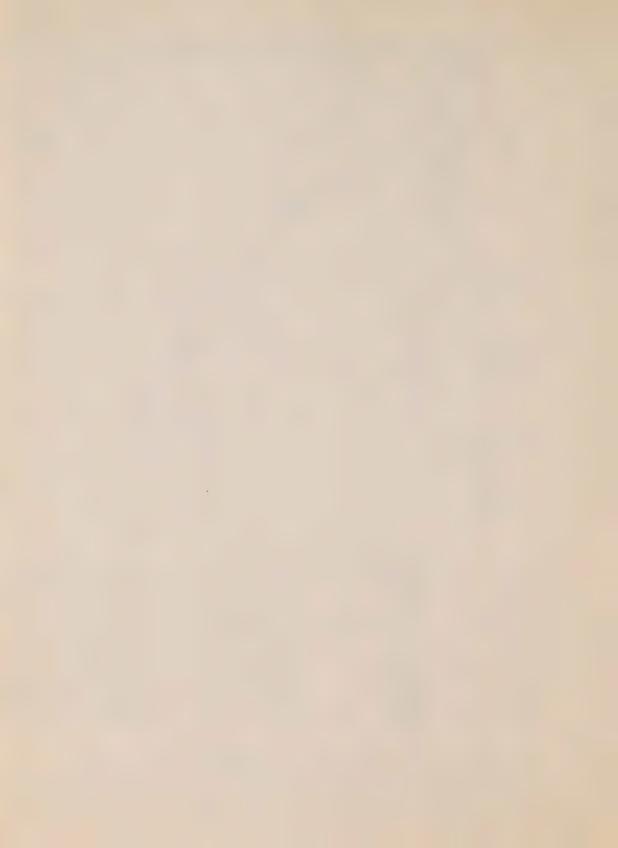

The Tenth (1961) CENSUS of Canada has prepared a report which provides a series of reference maps for the 1961 Census. A map is provided for each of the ten provinces of Canada, outlining the boundaries of the counties, or census divisions, as the case may be.

The maps for all provinces except Quebec and Ontario show the various subdivisions of the counties or census divisions. For the Prairie Provinces, the maps outline the boundaries of the municipal units, and, in addition, the lines of the smaller subdivisions indicate the townships. Because of the small scale of these provincial maps, it is not possible to outline the subdivisions of the counties in the Provinces of Quebec and Ontario. If these are required other map sources should be consulted.

This bulletin also contains maps showing the municipalities, or parts thereof included in each of the census metropolitan areas. As in the provincial series, these maps are not drawn to a uniform scale, and are restricted to principal features of outline only. Their main use is as a guide to locations and to show the broad geographical relationships of the areas involved.

A request for this bulletin may be made to the Bureau of Statistics, Publications Distribution Unit, Financial Control Section, asking for 1961 Census BULLETINS 1-2, 1-3, 1-4, 1-5, 1-6. Price 25 cents each,

### THE MANUFACTURING INDUSTRIES OF CANADA, 1960

SECTION G

# GEOGRAPHICAL DISTRIBUTION

In order to expedite the publication of the present report a change was made in the method of compilation and publication. In the past, the tables were prepared by hand, from the machine tabulations which gave statistics for each industry regardless of the number of establishments in each. The tables then had to be varityped and photographed for printing. This was a costly and time-consuming procedure. Under the new method, the tabulators are set up to provide the appropriate combinations required for publication. All that is now necessary

to do by hand is to paste on the appropriate headings. When this is done the page is ready for photographing, thereby saving two costly steps, viz., varityping and proofreading. As the punch card contains only 80 columns, some of the principal statistics are published in thousands instead of units as formerly. It was also necessary to shorten some of the industry titles appearing in the stub and abbreviations used. However, the list of the full titles are given below for reference, including the abbreviations in brackets.

#### INDUSTRIES

#### 1. Foods and beverages:

Bakery products: Bakeries Biscuits

Beverages:
Breweries
Distilleries
Soft drinks
Wineries

Dairy products:

Butter and cheese
Condenseries
Ice cream
Pasteurizing plants
Process cheese

Fish products: Fish products

Fruit and vegetable canners and preservers:
Fruit and vegetable canners and preservers (fruit and vegetable preparations)

Grain mills:
Feeds
Flour mills
Breakfast cereals

Meat products:
Animal oils and fats
Poultry processors
Sausage and sausage casings
Slaughtering and meat packing

Other food processors: Confectionery Macaroni Miscellaneous foods Sugar refineries Vegetable oils

2. Tobacco products: Leaf tobacco processing Tobacco products

3. Rubber:
Rubber footwear
Rubber tires and tubes
Other rubber industries

#### 4. Leather:

Leather gloves Leather tanneries Shoe factories

Luggage, handbags and other leather goods: Boot and shoe findings Leather belting Miscellaneous leather products

#### 5. Textiles:

Cotton yarn and cloth

Miscellaneous textiles: Automobile accessories, fabric Embroidery, pleating, hemstitching Miscellaneous textiles

Other primary textiles:
Carpets, mats and rugs
Cordage and twine
Fibre preparing
Linoleum and coated fabrics
Narrow fabrics
Pressed and punched felt
Textile dyeing and finishing
Thread

Canvas products Cotton and jute bags Synthetic Textile mills

Woollen mills: Wool cloth Wool yarn

Other textiles:

#### 6. Knitting mills:

Hosiery Other knitting mills

#### 7. Clothing:

Men's, women's and children's clothing: Clothing, children's factory Clothing, men's factory Clothing, women's factory Clothing contractors, men's Clothing contractors, women's

Foundation garments Fur goods Hats and caps

#### INDUSTRIES - Concluded

#### 7. Clothing - Concluded:

Other clothing: Fabric gloves Miscellaneous clothing

#### 8. Wood:

Coffins and caskets

Miscellaneous wood:
Cooperage
Miscellaneous wood
Wood handles and turning
Wood preservation
Woodenware

Sash, door and planing mills: Hardwood flooring

Sawmills Shingle mills Veneer and plywood Wooden boxes

#### 9. Furniture and fixtures:

Electric lamps and shades Household furniture Office furniture Other furniture

#### 10. Paper:

Asphalt roofing Miscellaneous paper converters

Paper boxes and bags: Corrugated boxes Folding boxes and set-up Paper bags

Pulp and paper mills

#### 11. Printing, publishing and allied industries:

Commercial printing: Lithographing Printing and bookbinding

Engraving, stereotyping and allied industries: Engraving and duplicate plates Trade composition or typesetting

Printing and publishing Publishing only

#### 12. Primary metal:

Aluminum rolling, casting and extruding Copper and alloy rolling, casting and extruding Iron and steel mills Iron foundries Metal rolling, casting and extruding Smelting and refining Steel pipes and tubes

#### 13. Metal fabricating: (except machinery and transportation

equipment:
Boiler and plate works
Fabricated Structural metal
Hardware, tools and cutlery
Heating equipment
Machine shops
Metal stamping, pressing and coating
Miscellaneous metal fabricating
Ornamental and architectural metal
Wire and wire products

#### 14. Machinery: (except electrical machinery)

Agricultural implement Commercial refrigeration and air conditioning equipment Miscellaneous machinery and equipment Office and store machinery

#### 15. Transportation equipment:

Aircraft and parts Boatbuilding and repair Miscellaneous vehicles Motor vehicles Motor vehicles parts Railroad rolling stock Shipbuilding and repair Truck body and trailers

#### 16. Electrical products:

Batteries
Communications equipment
Electric wires and cables
Electrical industrial equipment
Household radio and television receivers
Major appliances (electric and non-electric)
Miscellaneous electrical products
Small electrical appliances

#### 17. Non-metallic mineral products:

Abrasives Asbestos products

Clay products:
Clay products (from domestic clays)
Clay products (from imported clays)

Cement Concrete products

Glass and glass products:
Glass
Glass products
Gypsum products
Lime
Mineral wool
Other non-metallic mineral products
Ready-mix concrete
Refractories

#### 18. Petroleum and coal products:

Stone products

Petroleum refineries:
Lubricating oils and greases
Petroleum refining

Miscellaneous products of petroleum and coal

#### 19. Chemical and chemical products:

Explosives and ammunition Industrial chemicals Mixed fertilizers Paints and varnishes Pharmaceuticals and medicines Plastics and synthetic resin

Other chemicals: Printing inks Other chemicals

Soaps and cleaning compounds Toilet preparations

#### 20. Miscellaneous industries:

Brooms, brushes and mops Fur dressing and dyeing Jewellery and silverware

#### Miscellaneous industries: Artificial flowers and feathers Artificial ice

Buttons, buckles and fasteners
Candles
Fountain pens and pencils
Hair goods
Models and patterns
Musical instruments
Other miscellaneous industries
Smokers' supplies
Sound recording
Stamps and stencils (rubber and metal)
Statuary, art goods, regalia and novelties
Typewriter supplies

# Umbrellas Plastic fabricators

Scientific and professional equipment: Clocks and matches Dental laboratories Instruments and related products Ophthalmic goods Orthopaedic and surgical appliances

Signs and displays

Sporting goods and toys: Sporting goods Toys and games Venetian blinds

TABLE 1. Historical Summary of Statistics of Manufactures for the Dominion, 1917-60

¹ The value added by manufacture is derived by subtracting from the gross value of products the cost of materials and fuel and electricity.

² A change in the method of computing the number of wage-earners in the years 1925 to 1930, inclusive, increased the number somewhat over that which the method otherwise used would have given. In 1931, however, the method in force prior to 1925 was re-adopted. The figures for 1931 and later years are, therefore, comparable with those for 1924 and earlier years.
³ Not collected.
⁴ Includes Newfoundland.
⁵ In 1952 the basis of collection became "Value of factory shipments".

TABLE 2. Summary Statistics of Manufactures, by Provinces, Significant Years, 1917-60

<sup>&</sup>lt;sup>1</sup> Since 1952 basis of collection is "Value of factory shipments".

<sup>2</sup> The implementation of a new definition of the establishment (reporting unit) in the 1961 Census of Manufactures has resulted in certain changes and necessitated some adjustments to the statistics, in order to maintain comparability of the principal statistics for recent years, the necessary adjustments were applied to the data back to 1957. (See text dealing with changes in classification and concept at beginning of this report.)

ANNUAL

## The Manufacturing Industries of Canada, 1961

## Section G

## Geographical Distribution

## ERRATA

Page 9, Table 1:

"Value added by manufacture" for 1958 (revised basis) reads \$9,730,898,009 should read \$9,437,469,060.

"Selling value of factory shipments" for 1957 and 1958 (revised basis) read \$21,744,139,942 and \$21,727,544,219, respectively - should read \$21,448,102,258 and \$21,434,115,270, respectively.

Attached replacement for Page 12 corrects erroneous figures in "Value added by manufacture", 1958 and "Gross selling value of products", 1957 and 1958.

#### NOTE. - 1961 REFERENCE MAPS

The Tenth (1961) CENSUS of Canada has prepared a report which provides a series of reference maps for the 1961 Census. A map is provided for each of the ten provinces of Canada, outlining the boundaries of the counties, or census divisions, as the case may be.

The maps for all provinces except Quebec and Ontario show the various subdivisions of the counties or census divisions. For the Prairie Provinces, the maps outline the boundaries of the municipal units, and, in addition, the lines of the smaller subdivisions indicate the townships. Because of the small scale of these provincial maps, it is not possible to outline the subdivisions of the counties in the Provinces of Quebec and Ontario. If these are required other map sources should be consulted.

This bulletin also contains maps showing the municipalities, or parts thereof included in each of the census metropolitan areas. As in the provincial series, these maps are not drawn to a uniform scale, and are restricted to principal features of outline only. Their main use is as a guide to locations and to show the broad geographical relationships of the areas involved.

A request for this bulletin may be made to the Bureau of Statistics, Publications Distribution Unit, Financial Control Section, asking for 1961 Census BULLETINS 1-2, 1-3, 1-4, 1-5, 1-6. Price 25 cents each.

## INTRODUCTION

# Recent Changes in Classification and Concept

The statistics contained in the 1960 report on Geographical Distribution reflected the implementation of the revised Standard Industrial Classification which provides for a breakdown of the manufacturing universe into 140 industries arranged in 20 major groups (see listing at end of text). This compares with 135 industries in 17 major groups in the old classification system which was used in the compilations for the years 1949 to 1959 inclusive. The revised classification incorporates changes considered desirable on the basis of experience in using the earlier classification as well as those which take account of changes in the structure of Canadian industries associated with the rapid developments of the past decade.

The revised classification introduced in last year's report brought about substantial changes for a number of industries because of the shifting of establishments from one industry to another, or because of regrouping of establishments into different industry classes. Many industries remained substantially unchanged. This revision in the classification resulted in some discontinuity when the 1960 data for industries or groups of industries in small geographic areas were compared with those of previous years. Data on the revised basis were compiled by province and major group back to 1957 and published in the provincial summary reports but it was not found practicable to recompile all the detail contained in the Geographic Distribution report for back years.

The present report for 1961 reflects a conceptual change which will result in an additional break in continuity. This change is an essential part of a programme aimed at improving the quality and consistency of industry statistics while at the same time facilitating reporting of the data. The differences between the 1961 and 1960 compilations, however, are not substantial as those affecting the comparability of 1960 data with those of previous years. The differences in the 1961 statistics are the result of a change in the definition of the reporting unit (establishment) in the Census of Manufactures. The "establishment" is now defined as the smallest unit which is a separate operating entity capable of reporting all the following:

Materials and supplies used, Goods purchased for resale as such, Fuel and power consumed, Number of employees and their pay, Inventories, Shipments or sales,

The establishment is to be distinguished from smaller subdivisions or departments which do not have records that permit them to report all items required of an establishment. Prior to 1961, some

establishments were required to submit two or more separate reports when they were engaged in operations which were classifiable to different industries. Beginning with 1961, separate reports for such operations will be required only in cases where accounting records can provide the elements of principal statistics enumerated above. Special reporting arrangements were made with respondents when the acceptance of combined reports would have seriously affected the statistics for particular industries or areas.

A manufacturing establishment is typically a factory, mill or plant principally engaged in manufacturing operations. Prior to 1961, the Census of Manufactures attempted to cover the manufacturing activities of all establishments, whether or not they were primarily engaged in manufacturing operations. Beginning with the 1961 Census, establishments (accounting entities) which are not primarily engaged in manufacturing are no longer included as manufacturing establishments in the basic industry statistics. Such reporting units are now listed as establishments in other Bureau surveys, such as Wholesale Trade, Construction, etc.

A manufacturing establishment may be, and often is engaged in other activities in adition to its principal manufacturing activity. Prior to 1961. the main emphasis in the Census of Manufactures was on manufacturing activity. Beginning with 1961. each establishment reports on the total operations carried out within its accounting boundaries (except income from investments such as rent, interest and dividends). However, data on different activities (manufacturing, trading in goods not of own manufacture, construction by own labour force etc.) are requested separately. The 1961 statistics in this report are confined to manufacturing activity in order to maintain as much comparability as possible with previous years. In the 1962 report, it is planned to publish the principal statistics on the "total activity" basis with the main elements of manufacturing activity shown separately as in the past. It is planned also to start showing man-hours paid in all the tables of the report.

Additional changes resulted from intensive editing and follow-up consistent with the introduction of the new concept. An example of such changes is the provision for the elimination, in total, of sales taxes and outward transportation charges from value of shipments. Prior to 1961, although the value of shipments for each product was requested excluding taxes and transportation charges, no allowance had been made for the deduction of these items in total when the respondents' records did not permit their deduction from the values of the individual products. Another example is a change in the valuation of shipments where, prior to 1961, a

manufacturing company operating warehouses or sales outlets was reporting value of shipments on a cost basis or interms of an estimated manufacturer's price in accordance with the old activity concept, even though his records were not kept on this basis. Since the accounting boundary in such cases extends to distribution operations, the respondent was instructed in 1961 to report shipments at the final selling price in order to obtain more realistic and accurate data.

In Table 2 of this report, "Summary Statistics of Manufactures, by Provinces", provincial totals for the period 1957-60 were adjusted to compare with the 1961 statistics and are shown at the end of the table. (Revised figures for major groups in each province for the period 1957-60 are published in the provincial summary reports.) These revised figures

reflect both the change in classification introduced in 1960 and the change in concept described above and supersede the data published for the same years in previous reports. The old figures are also shown in Table II in order to provide a period of overlap at the provincial level. As noted earlier it was not found practicable to recompile principal statistics at all levels of geographic detail.

In order to indicate the magnitude of all the changes described above resulting from the introduction of the new concept in the 1961 Census, the following table shows the differences, at the total provincial level, in the value of shipments for 1960 compiled according to both the old and the new concept. (Both compilations are on the basis of the new Standard Industrial Classification.)

Selling Value of Factory Shipments, 1960

Province	Original	Revised <sup>1</sup>	Difference
		dollars	
Newfoundland	129, 284, 578	127,024,882	- 2, 259, 696
Prince Edward Island	30, 231, 361	29,012,913	- 1,218,448

New Brunswick	377, 110, 146	370, 235, 269	- 6,874,877
Quebec	7, 206, 096, 003	7, 115, 675, 385	- 90,420,618
Ontario	11,685,675,652	11,554,353,543	- 131, 322, 109
Manitoba	738, 457, 346	719, 411, 102	- 19,046,244
Saskatchewan	344,773,261	338, 151, 551	- 6,621,710
Alberta	889,657,800	870, 521, 830	- 19, 135, 970
British Columbia	1,936,917,630	1,922,445,777	- 14,471,853
Yukon and Northwest Territories	3,071,218	2,927,723	- 143, 495
Canada	23,747,457,083	23, 440, 746, 293	- 306, 710, 790

The revised figures in other Manufacturing Industries reports reflect the removal from the 1960 and 1961 compilations of the Poultry Processors and Dental Laboratories industries and book publishing and electro-plating establishments, all of which were surveyed for the first time in the 1960 Census. This was done in order to achieve complete comparability in historical statistics for the period 1957-61. They will be re-introduced in the revised 1961 statistics to be released in the 1962 Census of Manufactures reports and will form part of the regular compilations thereafter. For purposes of this report, however, in order to maintain as much comparability as possible with the 1960 geographic figures which included these establishments and which were not re-compiled on the revised basis, the establishments involved were left in the compilations. In total they represented \$161 million in value of shipments. In this report, therefore, the total difference between the original and revised figures for 1960 is \$307 million, while in other 1961 manufacturing industry reports, the total difference amounts to \$468 million.

#### 20. Miscellaneous industries:

Brooms, brushes and mops Fur dressing and dyeing Jewellery and silverware

Miscellaneous industries: Artificial flowers and feathers Artificial ice Buttons, buckles and fasteners Candles Fountain pens and pencils Hair goods Models and patterns Musical instruments Other miscellaneous industries Smokers' supplies Sound recording

Stamps and stencils (rubber and metal) Statuary, art goods, regalia and novelties Typewriter supplies Umbrellas

Plastic fabricators

Scientific and professional equipment: Clocks and watches Dental laboratories Instruments and related products Ophthalmic goods

Orthopaedic and surgical appliances

Signs and displays

Sporting goods and toys: Sporting goods Toys and games

Venetian blinds

Note: A modified (expanded) version of the Standard Industrial Classification is used for the Census of Manufactures. A number of the three-digit S.I.C. categories are subdivided into four-digit classes with the result that the classification scheme becomes one comprised of 184 three-and four-digit industries compared to the 140 three-digit industries in the standard structure.

TABLE 1. Historical Summary of Statistics of Manufactures for Canada, 1917-61 Note: Principal statistics for 1870 to 1924 published in the 1951 edition of this report

¹ The value added by manufacture is derived by subtracting from the gross value of products the cost of materials and fuel and electricity.
² Prior to 1952 the basis of collection was value of production.
² A change in the method of computing the number of wage-earners in the years 1925 to 1930, inclusive, increased the number somewhat over that which the method otherwise used would have given, in 1931, however, the method in force prior to 1925 was re-adopted. The figures for 1931 and later years are, therefore, comparable with those for 1924 and earlier years.
¹ Not collected.
³ Newfoundland included from 1949.
⑤ Statistics for the period 1957-61 reflect the implementation of the New Establishment Concept in the 1961 Census as well as a change in the classification of industries introduced in the 1960 Census. Adjustments were made in order to achieve comparability of data over this period, but these statistics are not strictly comparable with those of previous years. A description of the changes resulting from the implementation of the new for the years 1957-59 in the table to indicate the differences arising from these changes.

<sup>&</sup>lt;sup>1</sup> Since 1952 basis of collection is "Value of factory shipments".

<sup>2</sup> The implementation of a new definition of the establishment (reporting unit) in the 1961 Census of Manufactures has resulted in certain changes and necessitated some adjustments to the statistics. In order to maintain comparability of the principal statistics for recent years, the necessary adjustments were applied to the data back to 1957. (See text dealing with changes in classification and concept at beginning of this report.)

<sup>..</sup> figures not available.
